Host Trust & Profile Verification Insights

- In **2015**, Airbnb reached the **highest** number of listings. 2016 and 2017 saw a restraint also due to tightening in local regulations. Despite this, Airbnb became **profitable** in the second half of 2016, and 2017 marked the first full year of generating income. From 2018, there was a new growth stopped in 2019 by the **COVID-19** pandemic.
- **Paris, NYC and Sydney** account for almost half of the total listings and **59%** of total reviews.
- **Paris** is the city with the **most listings and reviews**. A possible driver is the **prices** for hotel rooms **beings nearly twice** as much as other listing types.
- **Mexico City** and **Rio** are the overall **best-rated** cities, **Hong Kong** and **Istanbul** the **Lowest-rated cities**. Cleanliness and value for money ratio are the two metrics generally scoring the lowest .

Reviews and Trust Factor

- Reviews provide information about the **customer order frequency**. Most of the customers wrote a review **only once**. **98.8%** of the customers did so **3 times or less**.
- One customer wrote **283 reviews**: last two 13-oct-20, of the listings in Bangkok (Potential outlier or data anomaly).
- **Paris** and **Rome** dominate review share from **April to August**, reflecting peak European summer travel.
- **New York** saw an increase in November and December during the holiday season .
- **Over two thirds** of the Airbnb hosts are fully verified, while nearly all hosts provide at least one trust signal , keeping unverified and anonymous profile to a minimum.
